That isn't what the request was. It was for Farmington. Here's Susan email:

~*~*~*~*~*~*~*~*~*

The REOC has been activated for the Gold King Mine Spill. This is an immediate activation of the R6 RSC.

The Region is requesting 30 EPA staff be immediately deployed to the Farmington NM area as community relations support. Deployment is for potentially a week (min 5 days deployment).

Preference is for a min of 24-hour HAZWOPER, and medical monitoring.

Please have staff, that have supervisor approval to deploy, email Michael Torres and cc Mikeal Adams and Susan Webster.

Thank you for you help! Susan

Lisa, why would we need hazwop for REOC? I think David thought, as I, that Cindy was going to NM. He has never wanted our staff in the REOC room at the region. If there are community specialists going to Farmington, I feel Cindy needs to be there. Lisa or Diane, either one of you want to ask around why she's on the 8th floor? We need to reserve her for actual out in the field work, my opinion. Thanks.
